

Kevin Hanegan

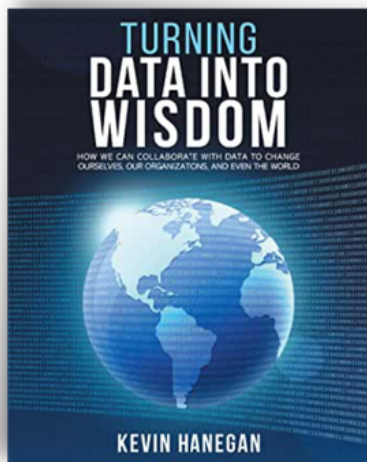

Author | Professor | Speaker

"Kevin brings a ton of humor, experience, and thoughtfully communicated wisdom to his presentations. I learned so much more than I expected and experienced a mind-shift that I wouldn't have thought possible."

Kevin is currently the Chief Learning Officer at Qlik, a data and analytics company. He is also the chair of the advisory board for The Data Literacy Project and author of multiple books, including *Turning Data Into Wisdom: How We Can Collaborate with Data to Change Ourselves, Our Organizations, and Even the World*.

Kevin brings his wealth of knowledge on topics of data literacy, data-informed decision-making, and essential skills for today's worker to the many conferences and seminars he has spoken at globally.

Testimonials

"Was one of the best presentations I've seen in years. I learned how to challenge the assumptions and bias associated with data."

"Kevin is a fabulous presenter. I see why he has a career in public speaking. His ability to tell a story to explain the importance of variety topics is top notch. Not only did he keep the audience engaged the entire time, but I was able to leave the session with information I could immediately use and apply."

Speaking Topics

The Data-Informed Organization

Industries are experiencing rapid digital transformations which has increased the amount of data available. This advancement has generated the need for increased focus at every level of organizations making decisions based off data overwhelming. This talk walks through how organizations can provide the right culture, tools, processes and individual skills to effectively leverage data to make decisions.

How to Improve Your Decision Making

Data-informed decision making is the ability to transform data and information into actionable and verified knowledge to ultimately make decisions and act on them. This talk introduces a six-step decision-making process and walks through examples of how this can be applied at work and at home.

Essential Skills for Today's Worker

A talk highlighting how the workplace has evolved and what are the skills that are essential today. Sessions can cover an overview of each skill, or a deeper dive into a specific skills, including mitigating cognitive bias, resilience, active listening, challenging assumptions, and exponential thinking.
